**Classes held at Finger Lakes Community College, Canandaigua*

TrueCourse Captain's School is a USCG approved school that specializes their instruction on the Inland River Systems, Great Lakes, and East Coast. Our instructors are specially trained to give you every advantage to understand the material that is included on the USCG test (**we give the test**). We go the extra mile that most schools neglect, by providing all the other required steps to ensure that you will complete every regulation to obtain your license. No other school **"holds your hand" throughout the process of license application** like TrueCourse Captain's School.

Yet, our courses are designed for the pleasure boater too. So, even if you're not planning a full or part time career as a licensed captain, you'll find the material will make you a **better skipper**.

Courses Offered

OUPV: Known as the 6-Pack. This license is required for carrying up to 6 passengers for hire. It can be used for entry-level Delivery Captains or mates, or Captains of private boats for short cruises. This is a frequent license used for fishing guides. This is also a great license for the private owner that wishes to become a better Skipper of his own vessel. The course teaches you to be a competent boat pilot. The class is 56 hours long and is scheduled, in most locations, so as not to interfere with your work schedule.

Tow Endorsement: This addition to either license permits the Captain to engage in the work of towing or salvage; a must if you plan to work for a licensed towing service, or for practical knowledge to assist a fellow boater. The class is 4 hours.

Master Upgrade: This is for larger USCG-inspected boats that carry more than 6 passengers, such as ferry boats, dinner cruise boats, water taxis and commercial boats. Most boat delivery Captains hold a Master License to pilot the boat for delivery. This course teaches you the regulations and USCG requirements to "manage" the boat, not necessarily to pilot the vessel. This is a three-day class. Most students find it best to take this class directly following the OUPV for easy USCG combined application of license.

Auxiliary Sail Endorsement: This course allows the Master Captain to master a sailing vessel with more than 6 passengers, or inspected boat.

MROP: This is a service, not a course. We provide the study guide and FCC test for the Marine Radio Operators Permit. Recommended for the Master Captain to be the licensed radio operator on a USCG-inspected vessel.

License Renewal: Your license is good for 5 years, with a 1-year grace period. By taking this one-day class, you eliminate the need for 360 days of vessel time to qualify for renewal.
